NOW, THEREFORE, IT IS ORDERED that this Court's March 17, 2020, Order No. 20-8500-002, at page 4, lines 16 through 23, which granted judges expanded discretion to authorize telephonic and audio-visual attendance for court appearances is AMENDED, effective immediately, as set forth in this order to authorize court appearances by remote methods to fullest extent possible. All judges are now required to use telephonic or audio-visual attendance for court appearances by attorneys, litigants, witnesses, and the press, unless there is an emergency need for an in-person appearance. The parties may, by motion, request in-person appearances where necessary. If a judge identifies a need for an inperson appearance on the judge's own initiative, prior to proceeding with the inperson appearance, the judge shall confer with the parties and the chief judge of the district. Judges may continue to take other protective measures, including the granting of continuances upon motion of any party or the judge's own motion, in appropriate cases when remote appearances are not feasible under the circumstances. Any criminal procedure rules requiring the presence of the defendant may continue to be accomplished through remote, audio-visual appearance, provided that confidential communication between the defendant and defense counsel is made available;
